

Don't Fall for Phishing Bait!

“More than \$57 million lost to phishing scams in a year...”

– FBI Internet Crime Complaint Center

Intrada's Tips: How to Protect Yourself from Scams

1 Never Respond to Scam Emails

2 Never Send Financial or Medical Info in Email

3 Never Use Password Resets You Didn't Request

4 Have Intrada's Help Desk Check It Out

5 Don't Click!

The hyperlink may take you to a website that looks familiar, but it is fake and designed to collect your personal information.

Instead, type in the address of the site you want to visit.

Remember...

- Phishing emails and text messages may look like they are from a company you know or trust.
- They are designed to trick you.

Stop. Delete. Don't Click!
